## "The Weekly Record"

JAMES WEIDMAN, Proprietor.

The News devotes a column

this week to personal abuse of

the editor of The Record and mis-

representation of our plant. It can

have a monopoly of that kind of

thing. We have executed a great

variety of job printing since we

started eight months ago, and every

job speaks for itself. In all that

long column of verbiage, the ques-

tion of extorting money from the

municipality is scarcely referred to.

There is not even a denial, and the

news man knows he cannot prove

up so large a circulation as The

RECORD and therefore avoids that

issue also.

To the Editor of The Record:

Lismore, Ireland. And now the as a means of avoiding any possible  
wise down street will, we suppose make one more "object-  
ify," that he is unable to turn an  
Irish Scotchman English aristocrat  
Burke in his "Landed Gentry" must  
have overlooked Mr. M'Crossan's  
name and not applied to him for  
information. What a pity for his  
future posterity, as well as for  
Burke's edification.

Yours truly, H. S. GRANT.

## PIGMY.

Just after the last general elections  
for the Dominion Parliament, Nichol-  
as Flood Davis, commonly called  
"Davis," saw a probability of the  
Liberals coming into power, and he  
began to climb the fence to be ready  
for a jump to the side that he  
thought might control the leaves  
and fishes, for which Davis has a  
peculiar fondness. Hon. E. Dewdney  
was justly preferred to him  
as the representative of the Northwest  
in the cabinet. In fact between the  
two men there is no comparison.  
Davis is the last man in the House  
who should be chosen for a cabinet minister.  
True he has talent, but it is not of sufficient force  
to keep him sober when most needed.  
His impudence is colossal when he  
compares himself to the late Hon. Hon.  
George Brown, as he does in the  
following extract from an interview  
with an Ottawa reporter recently.  
It is like a pigmy placing himself  
beside a giant and saying I am his  
equal.

"Are you going to press yester-  
day against Hon. Mr. Dewdney?"  
Mr. Davis was asked by an Ottawa  
reporter.

"There you go," replied the mem-  
ber for Weston Assiniboia, "jumping at  
conclusions like too many others.  
I am not the Regina Leader, though  
some people think I am. I have  
made no charges against Mr. Dewdney.  
The Leader has, it is true, but that  
does not baffle me. In fact, I am find-  
ing out as George Brown found out,  
how very unpleasant it is to have one's  
personality associated with a great  
newspaper. Just as Brown and the  
Globe were synonymous terms so now  
Davis and the Leader have come to  
mean the same. Why should I be  
held responsible for the writing of  
sub editors whose copy I never see?"

But to answer your question, I may  
say that I have not yet decided  
whether to ask for an enquiry into  
a charge preferred against the minor-  
or of the interior, not by me, but by the  
Leader. But it is most probable that

public opinion in the west will re-  
quest me to do so.

I shall be compelled to take action.

## WE ARE A TOWN

OUR REEVE RETURNS.

A RECORD reporter interviewed  
Reeve Campbell after his return from  
Toronto on Monday last, and obtained  
from him the following particulars re-  
garding his mission to the provincial  
capital. The day after his arrival he  
arrived for an interview with Hon. Mr.  
Mowat and Gibson for the day fol-  
lowing. Accompanied by Mr. Jas.  
Connie, M. P. P. for this district, he  
waited upon those three ministers at  
their departments, and found them  
before being allowed to take up their  
quarters in the Tunnell Island

water power. The arrangement  
was made with Mr. Mather's company  
to bind them to expand \$250,000 in  
developing the water power, and as

the government controlled the price  
to be charged for the power supplied  
they thought that the works should

not be assessable. Finding the  
ministers were determined on this,  
Mr. Campbell agreed to the exemp-

tion. Mr. Mather was not in Tor-  
onto when Mr. Campbell arrived,

and after his arrival there Mr.

Mather offered no objection to the

bill; he simply insisted that certain  
clauses should be read in to give

full protection in the exemption.

The proposition to take in Keewatin

in the proposed town limits came

from Mr. Connie, who suggested it

in a meeting of the

ministers.

There is no Silvia in this land.

## TOWN TOPICS

Mr. R. Hall made a trip to Winnipeg this week.

The municipal council will meet on Monday next.

Mr. Chas. Moore made a prospecting trip east this week.

And how we have really the privilege of writing "the Town of Rat Portage."

Mrs. (Rev.) W. Spence is here on a visit to her parents, Mr. and Mrs. W. Oliver.

The Rev. W. C. T. U. will meet next Monday afternoon at the residence of Mrs. W. R. Gerrin.

The pleasing intelligence has been received that Dr. Scovil's health is improving and that he will soon return home.

Mr. W. Ross is west looking over Manitoba and territorial points where the firm of which he is member has sales for lumber.

Messrs. Holmes and Nelson have shipped three carloads of ore taken from the Bad mine to the reduction works here for treatment.

At the skating races last Monday in Winnipeg Joe Poirier won a medal in the men's race, and George Dubuage won the boy's race.

Mr. W. Bro. J. Ross Robertson, Grand Master of the Grand Lodge of Canada of Free Masons is expected here in about two weeks on an official visit to Pemba and Keewatin Lodges.

Mrs. M. Brown left last week on a visit to North Platte, Neb., to visit her sister. On Monday evening a number of friends met at the residence of Mr. and Mrs. Brown and spent a few pleasant hours.

Mr. C. C. Rance has decided to regulate sunrise, and has placed in his window a large 24-hour clock. You ought to see C. C. R. and see if you don't at his store see a splendid stock of gents' wear. See C. C. R. and see if you don't see what we say.

The meeting of the shareholders of the Reduction Works Co. promises to be an important one. The chief object is to arrange for additions to the plant, and to put the works in complete order for the treatment of ore before the opening of navigation.

One evening last week, by the accidental upsetting of a lamp there came near being a serious fire at the residence of Mr. Frank Moore. By his presence of mind and prompt action the flames were extinguished and Mrs. Moore and child narrowly saved from being burned.

The Bible class of Knox church gave a social in the fire hall on Thursday evening. It was well attended, and there was an abundant supply of choice eatables. The evening was very pleasantly spent, there being a variety of games, singing, etc. A handsome sum was realized which will be given to the poor.

Mr. Frank Moore visited the L.D. mine at Rossland last week, and found matters there progressing favorably. The principal shaft is now down about 24 feet and the vein is showing up well, the ore apparently being richer as the depth is increased. The engine and boiler are in place, and everything is ready for the machinery.

There will be another carnival at the Princess skating rink on Friday next—the 25th inst. The following prizes are offered—gent's best costume, a watch chain valued at \$1.00; Miss best costume, between the ages of 13 and 17; a brooch valued at \$3.50; best comique, a croquet set valued at \$2.25.

A Hungarian giving his name as John Keyston was brought before Judge Lyon on Saturday last charged with being a dangerous lunatic. He has been living in the woods near Norman without house or even bedclothes all winter, and has endured most remarkable hardships. He threatened Mrs. H. Cameron's life with a buck saw on the 8th inst. The evidence of several witnesses has been taken, but the Judge has not yet given his decision.

Mr. Alex. Matheson has completed his southern tour of inspection of Hudson Bay Co. posts. He went as far as Fort Frances and was absent three weeks.

Last Saturday word was brought to town of a man named Robert Stevenson, having cut his throat at one of the logging camps of the Keewatin Lumber Co. It was at Mr. Beesley's camp about 35 miles out. The suicide had been despondent for some time, but was not noticed to be more so than usual. He went to bed at the usual time on Thursday night, the 10th inst., and about midnight—Albert Reckie, who slept with him, was awakened by Stevenson crawling out of bed over him. He went to the water-pail and took a drink, and went back to bed again. Reckie went to sleep, but was again awakened by Stevenson who he found sitting up. The suicide then said he had tried to poison himself with laudanum, but could not, and he had cut his throat. Reckie got up and aroused others in the camp. Stevenson had severed the windpipe but not the jugular vein. He died in about twelve hours. A bottle of laudanum and a razor were found in his bed. The body was brought to town and an inquest held at which the above facts were elicited.

### CARNIVAL

The fancy dress carnival held at the Princess skating rink last Friday night was a grand success. There were many fine costumes and a large attendance of spectators. ## NORMAN

Mr. and Mrs. W. T. Creighton are west on a trip.

All the planing mills here are running, but it is feared that they will have to shut down for want of cars, on account of the strike on the C. P. R. This is unfortunate as orders were coming in for a large early delivery.
